

Quality Policy

It is ScoutCam's vision to improve the performance of organizations by offering prestigious tools that enhance the visual technological capabilities of companies across a variety of industries such as embedded micro cameras certified for medical and aerospace industries, provide multilayer data analytics based on a unique understanding of fault nature or parameters for predictions, alerts, and DSS for critical systems while effective prediction and implementation of operational, maintained, and design improvements.

It is the policy of ScoutCam to deliver high-quality and innovative products and solutions on time, meeting or exceeding customer requirements and expectations through a commitment to compliance with quality, safety, regulatory and legal requirements. This Policy is implemented through the Quality Management System developed in accordance with the requirements of the strictest standards such as Quality Management Systems (ISO 9001), Medical devices- Quality management systems (ISO 13485), and Quality management systems – Requirements for Aviation, Space and Defense Organizations (AS9100) by preserving a highest level of safety. In addition, as a public company traded on the stock exchange in the USA, Scoutcam is committed to following the American SOX rules.

ScoutCam employees and management are dedicated to continuous improvement of customer satisfaction, by means of continuous improvement of its solutions, products and internal processes (design, operational and financial processes) and committed to maintain and improve the company's quality management system by encouraging excellence among all employees using the highest standards and regulatory requirements.

The Management of ScoutCam implements risk-based analysis for the purpose of controlling the processes of the quality system; makes actions to achieve the quality objectives set by the management and standards; makes actions to implement the company's business strategy while ensuring that quality objectives are aligned with these processes.

ScoutCam management encourage each employee to foster their responsibility, personal growth, and integrity, while creating open communication in mutual respect and trust that encourages motivation and teamwork.
